

# THE LITTLE POND BOARDWALK

at The White Memorial Foundation  
Litchfield, Connecticut

The Boardwalk is an elevated wooden walkway which allows visitors to explore the wetland environment around Little Pond. Hikers can view numerous species of waterfowl as well as other wildlife associated with this habitat. In addition to walking through several wetland habitats, the trail, in two locations, crosses the Bantam River. Open year-round, the boardwalk is particularly interesting in the spring and fall during bird migrations and in spring and early summer when the numerous wildflowers are in bloom.

**HISTORY:** Originally built in the 1960's, the Boardwalk has been repaired and rebuilt several times. The latest reconstruction began in 1986 and was completed in 1994. The Boardwalk covers almost 1.2 miles of the Little Pond Trail. During the 1986-1994 project which took over 2,600 hours and \$73,000 to complete, 57,000 board feet of lumber and 1,000 pounds of nails were used. In the summer of 2022, our maintenance crew updated 367 feet, costing \$3800 in labor and materials, or \$10.35 each foot of boardwalk!

**TRAIL USE REGULATIONS:** The trail and boardwalk are limited to foot travel only. No bicycles, horses, or motor vehicles are allowed. As on all our trails, dogs must be kept leashed for their safety as well as others. Please take nothing and leave no trace!
